Dear Mr. Sample:

In the sales arena, you are a warrior. Fighting tooth and nail, you battle daily for supremacy, for territory, and most importantly, to close the deal with your prospect. To win, you must rely not only upon courage, stamina and wits, you must also wield the *most powerful weapon*.

Achieve victory when you arm yourself with VERITAS Database Edition™ *for Oracle*®, the leading database storage management software.

Database Edition *for Oracle* 2.2 is mightier than ever, and more in demand with customers running Oracle. Combining breakthrough performance with incredible manageability, VERITAS Database Edition *for Oracle* simplifies database administration and **provides continuous availability** – the number one priority of every customer with an Oracle database.

That's why this is such an easy sell.

You've always had the drive to conquer the competition. Now you've got the weapon to make it happen – VERITAS Database Edition *for Oracle*. Let the games begin.

Sincerely,

Robert Spurzem
Product Marketing Manager Database Editions

www.veritas.com/us/promotions/dbed

Must be present on webcast phone call to win. One winner will be chosen at random from all attendees. The odds of winning are dependent on the total number of attendees/entries. The winner will be announced at the end of the webcast, then notified by mail, e-mail or phone. Employees and authorized representatives of VERITAS Software, Inc. are not eligible to win. The winner is responsible for any applicable taxes and additional expenses.

VERITAS Database Edition™ *for Oracle®* is the sales warrior's weapon of choice.

The new 2.2 version is here!

In the battle for sales, every gladiator needs a weapon he can count on.

Now you can prepare for sales combat with ease. Just arm yourself with **VERITAS Database Edition** *for Oracle*, the industry's leading storage management software for Oracle®.

With version 2.2's improved availability features, **VERITAS Database Edition** *for Oracle* will help you win customers, topple quotas and gain all the rewards of the victor.

Conquer the competition.

Oracle is the most popular relational database on the market. VERITAS makes Oracle run faster and easier than any other software solution. Customers want this product. It's as simple as that.

Now, you've got a choice. Sign up to sell, or sit back and let the competition beat you to it.

VERITAS Database Edition™
for Oracle®

– sell it before they do.

www.veritas.com/us/promotions/dbed

A product crowds devour.

With **VERITAS Database Edition** ***for Oracle,*** database administrators no longer need to choose between the high performance of raw disk partitions and the ease-of-use of administrative file systems – you can offer them both in one product. **VERITAS Database Edition** ***for Oracle*** sells easily while it:

- Delivers maximum database performance with proven Quick I/O technology
- Eliminates the need to run Oracle data files on raw partitions
- Protects valuable data from user errors with online Storage Checkpoints
- Simplifies administration of very large databases

Upgrades in version 2.2 help provide continuous data availability by letting users:

- Mount Storage Checkpoints to easily analyze database files and recover from user errors
- Manage Storage Checkpoints more easily with new space utilization utility and new command line interface

Your customer's verdict *will be a* thumbs up.

With **VERITAS Database Edition™** *for Oracle®* you win the sales battle!

Sell more VERITAS — sell more of everything.

Customers managing Oracle with VERITAS products quickly develop an appetite for more hardware and software. They realize that with the right equipment, achieving continuous data availability is simple and inexpensive – compared with the high cost of system downtime and failure.

And with that realization, the door is open for you to aggressively sell VERITAS and a broad range of other products.

You win again.
